

Celebrating 15 years of partnership in Mexico

CSI made its 15th annual surgical trip to Hermosillo, Mexico, in October, and we were especially excited to celebrate our Quinceañera — a unique 15-year collaboration between CSI, CIMA Hospital in Hermosillo, Voluntariado CIMA, and St. Andrew's Children's Clinic in Nogales, Arizona. Working hand in hand with our supportive partners, we have been able to provide top-notch surgical and ongoing care for more than 750 children over the years.

One of the benefits of this collaboration is that many children return annually for evaluation and often, more surgery. On this trip, three patients who have had multiple surgeries with us in the past were told they had completed treatment and have "graduated" from the program. Our team could tell immediately who these kids were, as they emerged from the evaluation with huge smiles and their mothers crying happy tears.

For the first time ever on a CSI surgical mission trip, surgeons performed a combination free flap/bone graft surgery. José, 14, had such a large fistula (hole) in

the roof of his mouth that it could not be closed with a standard surgical procedure. Dr. Mike Fritz (facial plastic surgeon) and Dr. Dan Sampson (oral and maxillofacial surgeon), aided by CSI and local Hermosillo staff, harvested a small section of tissue from José's thigh, along with the vessels that supply blood to that tissue. This tissue was then transplanted into his mouth and sutured into vessels in the neck to provide blood flow. The surgeons were then able to close the fistula, and at the same time insert a bone graft into his upper palate.

What does this mean for José and his future? After a relatively easy recovery, he should experience improved speech, nutrition and appearance. Next he will be fitted for braces, further improving his speech and appearance. This surgery enables him to make an enormous leap forward in his quality of life. We are so proud of the CSI and CIMA surgical team!

BE the LIGHT

SAVE the DATE

The 16th Annual CSI Gala

Minneapolis Event Center Saturday, May 2, 2020

We invite you to join us for our annual fundraising gala on May 2 at Minneapolis Event Center. Each year, volunteers, friends, healthcare providers and community members gather to celebrate and support the work of Children’s Surgery International.

CSI is committed to making a lasting impact in the communities we serve. We work to provide access to pediatric surgical and routine healthcare through a patient-centered care delivery and teaching model. Our volunteer teams work collaboratively with and educate local peers so children can access high-quality surgical care in their community — both during a CSI mission and long after our team has departed.

Join us on May 2 and be the light that changes a child’s life and makes a lasting impact for communities in need.

- Enjoy cocktails and a delicious meal
- Connect with others who care deeply about making a difference in the world
- Hear about our work this year in Mexico, Ethiopia, Liberia and Tanzania
- Learn about our plans for the year ahead
- Participate in exciting new games
- Support CSI’s mission through the silent and live auctions, direct donations and other activities

Look for your invitation in the mail in March.

Fall happy hour

In November, CSI hosted its annual fall happy hour at Royal Foundry Craft Spirits in Minneapolis. Over 90 friends joined us to enjoy tasty hors d’oeuvres and craft cocktails while learning about our recent work in Mexico and Ethiopia. Mission team members Dr. Brianne Roby, Dr. Dan Sampson, Linda Sedgwick and Amy Fischer shared exciting updates and compelling stories of determination and hope.

We also were able to celebrate and honor Sue Baysden, CSI’s administrator for over 15 years, as she moves into retirement.

It was wonderful to see many trip volunteers as well as former board members. A big thank you to our

Board member Norie Wilson and Sue Baysden at CSI’s fall happy hour in November.

speakers, those who planned this event, and most importantly our friends who attended. Each and every dollar raised helps to support children, families and communities in need.

New CSI staff

Sue’s departure was a big change for CSI but also an opportunity. To help the organization meet the demands of our already busy trip schedule and look to the future, we made the decision to create two new part-time staff positions: one to focus exclusively on trip planning and execution and the other to focus on communications and office management. With this new structure, we are pleased to now have three part-time staff members supporting the work of our volunteers and partners. Executive Director Megan Sparks and the CSI board of directors are thrilled to welcome:

Lisa Masterson
Mission Operations Manager

Jen Nagorski
Office and Communications Manager

Save the date for our next event in the community on July 29 at Indeed Brewing Company.

Measuring success in Ethiopia

On each CSI trip, we measure success in numbers – surgeries performed, children evaluated, etc. But success can also be measured in our hearts on each trip, and the November trip to Ethiopia was no different:

Yihune, 15 years, first came to us last March with a complex urological problem that caused incontinence. He mostly wore sarongs because he was always wet, and he had stopped attending school. CSI surgeons performed a large surgery on his bladder. On our November screening day, Yihune walked in smiling, wearing jeans and told us how he had returned to school. He had

his second and final surgery and is a shining example of why we do what we do. Yihune's life has been changed.

Yohannes, 10 months, arrived in his pregnant mother's arms after two long days of travel. Unfortunately, they arrived after the surgery schedule was full. Despite considerable deliberation, the team couldn't accommodate Yohannes' cleft lip surgery. Tears were shed as they were told that space would be held for him in March. Despite this recommendation, mom returned, pleading to be included. As chance would have it, another family didn't show up,

making space available for Yohannes. Mom said she was lucky, but we knew it was less about luck and more about her tenacious love for her son.

Abuzer, 1 year, had been turned away by CSI last March because he was too young to have his cleft lip repaired. They returned for our November screening, but the two-day trip by bus and foot prevented them from arriving on time. Undeterred, mom was still at the hospital on our first day of surgery. We told her to go home and come back in March. On our second day, she was still at the hospital. Again, she was told to go home. On the third day, our surgeons said they would be able to add one surgery. We went to the lobby to see if by chance Abuzer and his mom were still waiting.

They were! The surgery was a success, and we expect Abuzer to return in March for cleft palate repair. A mother's resolve is a powerful force.

Planned gift funds fall Ethiopia mission

CSI was honored to receive an estate gift from longtime CSI supporter Ronald Briggs in 2019. Mr. Briggs' decision to include CSI in his will resulted in a gift that fully funded our fall Ethiopia surgical mission. We are grateful for this generous legacy support; Mr. Briggs' gift has made a profound lasting impact in Ethiopia.

To learn more about including CSI in your estate planning, contact Executive Director Megan Sparks at megan@childrenssurgeryintl.org or 612-746-4082.
